

We mitigate risk for sell-side investment banks and their clients by advancing the three objectives that govern every mandate:

GREATER SPEED

From engagement to market-ready, in a fraction of the time

LOWER COST

Fewer advisor hours spent assembling the growth thesis and execution path

MORE PREDICTABILITY

Fewer diligence surprises, fewer retrades, higher close certainty

65% of PE firm and family office portfolio companies fail to return their investors' capital.

OUR SOLUTIONS

1 Deal Evaluation

Rapid, data-driven screening and scoring that narrows thousands of potential deals to a qualified shortlist.

2 Operational Due Diligence

Deep operational analysis that defines the specific initiatives, people, and processes a target needs to grow.

3 Growth Activation Playbooks

A continually updated value creation engine — tactical growth roadmaps and execution playbooks for every portco.

THE UNIQUE NORTSHIFTS DIFFERENCE

● **AI + Human Experience & Expertise**

We combine the power of AI with the rigor and wisdom of our team's extensive operational and management experience — never one without the other

● **Integrated Into Your World**

We partner with our clients' teams and integrate directly into their existing processes and systems to ensure seamless execution

● **Data Privacy At The Core**

Our solutions are built with data privacy and user security as a core, foundational element — we **NEVER** share attributable data with third-party AI platforms

Don't just track your data. Act on it.
